Let's say you have 6 full-time children and claim breakfast, snack, and lunch for each of them daily.

How much can I make in a week? In a month?

There are 5 days in a week.

| | T1 | T2 |
|--------------------------|-----------------|----------------|
| Breakfast | \$42.00 | \$15.30 |
| Snack | \$23.40 | \$6.30 |
| Lunch/Dinner | \$78.90 | \$47.70 |
| Total \$ per Week | \$144.30 | \$69.30 |

And... there are roughly 4.33 weeks in a month.

| | T1 | T2 |
|---------------------------|-----------------|-----------------|
| Breakfast | \$181.86 | \$66.25 |
| Snack | \$101.32 | \$27.28 |
| Lunch/Dinner | \$341.64 | \$206.54 |
| Total \$ per Month | \$624.82 | \$300.07 |

So... although you already do many of the tasks... if you put 13 hours a month or 3 hours a week into CACFP your hourly "wage" would be...

Tasks you have...
